

Marfori

{tab=Marfori}

A high-rise condominium in the Lakefront area is sure to bring amazing views of the city and its environs. That's exactly what The Marfori is, the first of an enclave of mid-high rise condominiums.

With a lobby that surely rivals that of most hotels in the metro and full service amenities that include spas, bar/lounge, gym, indoor pool, and social halls, The Marfori fits surprisingly well in Lakefront's grand vision of neighborhood communities coming together in one space.

The Marfori has been such a desirable place to stay that residents have begun to move in as early as this past October 2008. Limited ready-for-occupancy units are still available so don't let this opportunity pass.

Location

Unique to Lakefront is the fact that it is the only urban property in Metro Manila, of this size that presents a 180-degree view of Laguna de Bay and the scenic Sierra Madre Mountains. Its central location takes advantage of all possible access points, making travel to and from the Makati CBD a mere 15 minutes while the Ortigas area is only 25 minutes away. The domestic and international airports can be accessed via Sucat in less than half an hour or through the Sales Exit from the South Luzon Expressway in approximately 10 minutes.

{tab=How To Get There}

Adding to the appeal of the Lakefront is the ease by which residents may access commercial centers or malls, top notch schools and hospitals. The Bonifacio Global City in Taguig, the Alabang-Zapote Road heading to Alabang and Las Piñas, and the M.L. Quezon Road going to Ortigas are also within reach.

Soon, Lakefront will have its own access to the Circumferential Road 6 (C-6)
